

New to MTA Light Rail? Here's how to get around during the emergency track-closure.

The Maryland Transit Administration (MTA) has launched an emergency project to repair the Light Rail tracks and prevent further erosion of land around the Cold Spring Lane area.

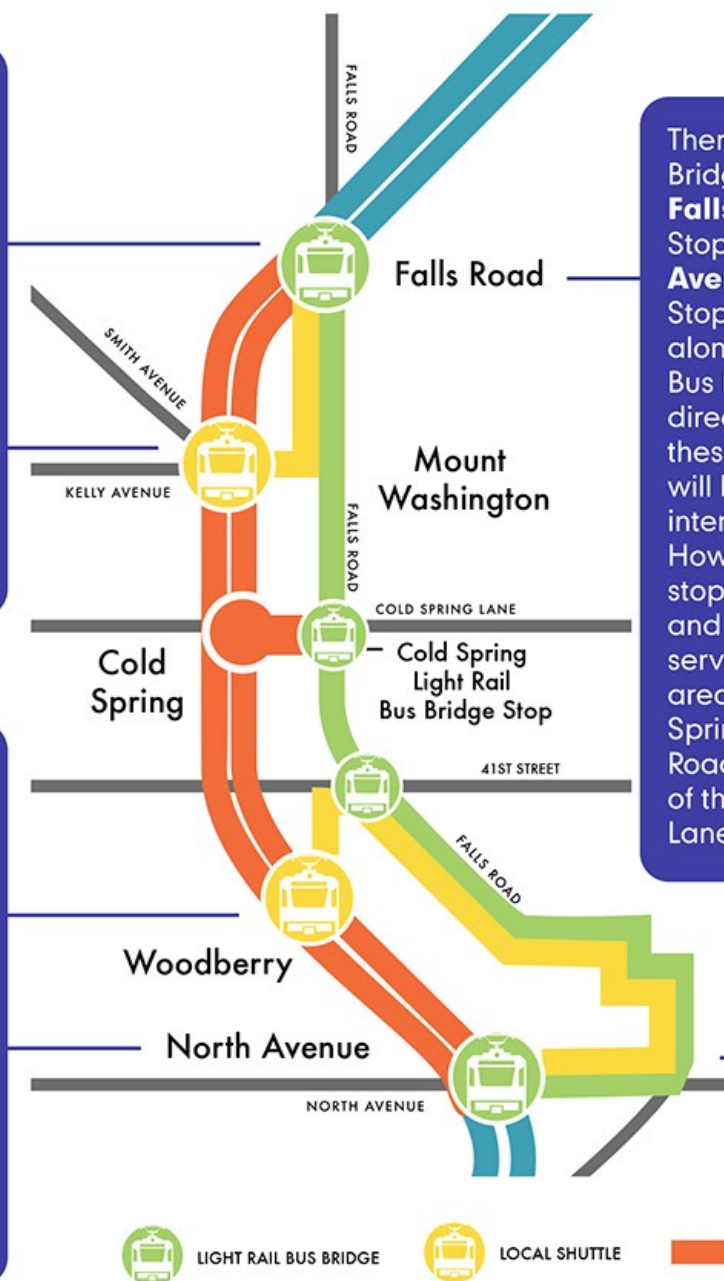

This emergency work is slated to take place between 5:00 a.m. Friday, June 20 until midnight, July 11, 2014, and requires the temporary closure of the **Mt. Washington**, **Cold Spring Lane** and **Woodberry** Light Rail stops.

Until service is restored to these stops, here's what you need to know:

There will be shuttle bus service between the **Mt. Washington** and **Falls Road** Light Rail stops. If you wish to travel south from Mt. Washington, take the shuttle bus to the Falls Road Light Rail Stop, then the Bus Bridge direct to the North Avenue Light Rail Stop. If you wish to travel north from Mt. Washington, take the shuttle bus to the Falls Road Light Rail Stop and continue north via Light Rail.

There will be shuttle bus service between the **Woodberry** and **North Avenue** Light Rail stops. If you wish to travel north from Woodberry, take the shuttle bus to the North Avenue Light Rail Stop, then the Bus Bridge direct to the Falls Road Light Rail Stop. If you wish to travel south toward downtown, take the shuttle bus direct to the North Avenue Light Rail Stop and continue south via Light Rail.

There will be a Bus Bridge between the **Falls Road** Light Rail Stop and the **North Avenue** Light Rail Stop that will travel along Falls Road. The Bus Bridge will travel directly between these two stops and will NOT stop at the intervening stations. However, it will make stops at 41st Street and Falls Road to serve the Woodberry area, and at Cold Spring Lane and Falls Road to serve patrons of the Cold Spring Lane Light Rail Stop.

For accessibility needs regarding this Light Rail closure, please call 410-764-7005. Thank you for your patience as we work to keep your ride safe.
